
Alcobendas 2007

Recibo comunicaciones de competidores que me dicen que esta competición ha sido una decepción. ¿Qué opináis?.

Yo tampoco puedo opinar mucho de esta competición. La última que vi, casi por prescripción facultativa, fue la de Salou y todavía sueño alguna noche con tres profesionales en la pista tropezándose por las esquinas. No se cuando vere la siguiente porque todavía tengo menos ganas. ;)

Por las críticas que se leen por ahí parece que el nivel de fallos de la organización estuvo muy alto y aunque las críticas sean de anónimos. Los errores en la confección de listados de participantes y horarios ya los avanzo incluso la propia organización.

Y es que lo que creo que no puede ser es que al competidor le pongan reglamentos de competición para todo, y sanciones, y los organizadores de competiciones anden como vaca sin cencerro a la hora de organizar una competición y de la que no saben si tendrá 1, 2 o tres pistas o 200 o 400 participantes.

Y ejemplo de esto último es la organización del famoso I campeonato de profesionales IPDSC y en donde, para empezar, ni siquiera la organización IPDSC tiene estatutos o reglas o reglamentos de competición por que esta en periodo de fundación. Un cachondeo absoluto, en este caso han empezado, por empecinamiento caciquil, la casa por el tejado.

Sobre una de las competiciones celebradas en Alcobendas, el I campeonato de profesionales IPDSC, hay una carta pública escrita hace dos días por el anterior presidente de la IDSF, el Sr. Karl Breuer, en donde entre otras cosas pone a caer de un burro al (implícitamente) al Sr. Freitag y a caer de un burro grande al "incompetente" de Torino.

La teneis en ingles aqui:
